Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 65-71 have been rejected under 35 U.S.C. 103(a) as being unpatentable over Smith, 2361506 in view of Laguerre, 3255501.

Regarding claims 65-71, Smith discloses the claimed adjustable binding strap (10). Smith discloses a variety of locker slots (14, figure 2) ranging from a v-shaped slit opening to a circular aperture. However, Smith fails to disclose the claimed triangular shaped slot having a longitudinal length larger than the width of the binding member and a guiding width at the height of the locker slot being at least equal to the width of the binding member. Laguerre discloses having a triangular shaped opening slot (figure 2) with a longitudinal length larger than the width of the binding member and a guiding width at least equal to the width of the binding member, i.e. the guiding width in Laguerre is larger than the width of the binding member. The shape and dimensions of Laguerre's locker slot improves the efficiency and ease of inserting and adjusting the tail end of the strip into and locking with the head end of the strip. Therefore, it would have been obvious to a person having ordinary skill in the art to modify Smith's v-shaped slit to be a v-

shaped slit with the length of the slit being larger than the width of the binding member.

Response to Arguments

3. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
